

## Ebrain progress during 2018/19

### Content updates

Over the last two years we have been reviewing and updating our elearning sessions (over 500 done, 25 to go!)

### Activity

There are 9685 registered users, between 20 and 40 log in every day, 70.3% are returning visitors  
16,719 sessions and 258,998 pages were accessed in 2018

79% of learners are from Europe but learners from 126 countries have accessed ebrain at least once in 2018

The formative question exercises in Neurology and Neurosurgery are the most popular content

### Quality Assurance

Did you know that:

1. Ebrain is written by experts
2. Ebrain learning sessions are peer reviewed
3. Feedback is collected on every session
4. Ebrain sessions have been quality checked by EACCME and the Royal College of Physicians

### New team members

Adrian Wills, Aleksandra Sokołowska and Johann Sellner have replaced Simon Shorvon, Martin Stienen and Vitalie Lisnic as ebrain clinical leads. We will be advertising for a new clinical lead to replace Hannah Cock who will be leaving in April 2019.

Ebrain has four staff members as follows:

Jo Pugh	Editor
Elinor Pritchard	Admin
Donna Cole	Publicity
Danielle Green	Technical support

### Little known parts of ebrain

- The question bank allows you to get 20 random questions filtered by topic if you wish
- Virtual patients that allow you to manage individual cases
- There is an education package to support an NIHR funded clinical trial
- Our first longer (MSc like) course is planned to run Sept 2019 – May 2020 for all ST3 Neurosurgery trainees
- There is online content to support a residential surgical training course.

### Getting involved

Perhaps you could lead development of a formative test of knowledge or a longer structured training course in your specialty?

We are always keen to accept virtual patient cases
